17th and Fairlawn Mill and Overlay

A mill and overlay project began on SW 17th street today. Bettis Asphalt began the project at Fairlawn and will work their way east to MacVicar, then turn around and proceed west back to Fairlawn along 17th Street. The project will last 4-6 weeks depending upon road conditions. This project

involves localized base repairs and a mill and overlay of the through lanes (not the center turn lane). Project is being done to improve road conditions until complete reconstruction starts in 2023.

Road Construction

The City of Topeka Public Works Department is kicking off construction season. Each week, the weekly report will have updates on the road construction projects in Topeka.

You can check out the City of Topeka's [pavement condition index](#)

(PCI) and [street maintenance program](#) to see how the Public Works Department fixes our streets.

Extreme heat this week will limit concrete work in the afternoons. Temperatures pushing 100 degrees with a heat index for 110+ is dangerous for the contractors as well as city inspection staff.

Construction highlights:

- Work continuing on Fairlawn between 28th and 29th. Majority of temporary pavement markings are installed with through lanes open. The signal at 28th and Fairlawn went to flash mode with full operation scheduled to start on July 18th.
- Traffic signal work at 27th and Burlingame nearing completion.
- Work on Clarion Woods, Chesney Park, Arvonía/Winding Road, SE

Adams and SW 29th/McClure continuing.

- NW Vail has all base asphalt placed. Getting ready to close the intersection of Vail and Lower Silver Lake road for complete reconstruction. Final surface lift of asphalt will be done once the intersection is complete.
- Cement treated subgrade placed last week on Gary Ormsby Road with additional subgrade prep done last Saturday. Asphalt placement will occur shortly.
- The Tennessee Town SORT project is under construction.
- Pedestrian bridge over the Shunga in Quinton Heights under construction.
- Work on SW 17th (Fairlawn to MacVicar) starting Friday (7/19). This project involves localized base repairs and a mill and overlay of the through lanes (not the center turn lane). Project is being done to improve road conditions until

complete reconstruction starts in 2023.

- Micro-surfacing project is continuing.

Recent Updates

- There have been 14 broken water mains in July with 227 breaks year to date. At this time last year there were 397 water main breaks.
- Public Works filled 61 potholes; 27,228 so far this year.

Development & Growth Management Report

Residential & Commercial Growth

* The Top 10 Permits table includes permits with the highest project completion cost issued to date, both commercial and residential.

The Planning & Development Department issues and tracks building permit information in the City of Topeka.

Total building permits issued is an indicator of development activity. Using 2019 permit data, **total building permits** were projected for 2019. From 2018 to 2019, **total building permits** are projected to increase 9% (488 vs 447). **Residential permits** are projected to decrease 7% (248 vs 268) as compared to an increase of 34% (240 vs. 179) in the total number of **commercial permits**.

In addition, both building square footage and building value can be projected to better understand the scale of investment the City of Topeka will experience in 2019.

Through 2019, **building square footage** is expected to increase by 61%, (3,055,494 sq. ft. vs. 1,897,889 sq. ft.). The **value of building permits** is expected to increase by 88% (\$195,571,980 vs. \$103,795,760). The table below shows the **Top 10 Permits** by valuation for the month of June.
